Tip or Complaint: On 11/20/2020, County Line Swine was hauling and spreading manure to an off-site field near multiple houses. The smell from the hauling trucks and land application impacted the neighbors. It is estimated (with a clock :)) they ran a tanker truck by about every 6 minutes for about 6 1/2 hours . This is not part of his waste management plan On 11/21/2020, there is still manure sitting on the surface of the land where it was to be "injected or incorporated" the same day. There is a 70% chance of rain here today. Two images (of many) will show manure pooled on the surface (not incorporated the same day). One image will also show the failed setbacks from grassy waterways.

Violation Still Occurring? Yes
